PROFILE

Technical all-rounder for service and maintenance: electrical (NEN 3140 Vakbekwaam Persoon, NEN 1010 basic knowledge), PV systems and IT/networks. Since April 2026 electrical installation technician in greenhouse horticulture at Stolze Aalsmeer (GreenV). Nine years as owner and lead installer of a solar installation company: 100+ PV projects, from quotation to service. Before that, 5 years as system administrator at an internet service provider, with troubleshooting and monitoring as daily work. Driving licence B and own transport. Looking for a permanent position as service technician, maintenance technician or electrical installation technician.

WORK EXPERIENCE

Electrical Installation Technician — Apr 2026 – present

Stolze Aalsmeer B.V. (part of GreenV) · Aalsmeer

- Electrical installation work in greenhouse horticulture
- Working under NEN 3140 as Vakbekwaam Persoon (VP), with basic knowledge of NEN 1010
- NEN 3140 re-instruction at ROVC (09/2026): theory + practice, portable and fixed installations

Owner & lead installer — 2015 – 2024

Solar installation company · Ukraine

- 100+ residential and commercial PV installations: design, mounting, cabling, connection and commissioning
- Led installation teams of up to 5 technicians; planning, materials and hand-over
- Full responsibility from quotation to service; customer advice and technical documentation
- 4 Ukrainian patents: 2 solar mounting systems, 2 marine (electric propulsion, boat manufacturing)

Co-founder — 2020 – present

NOVASAD garden centre with web shop · Ukraine

- Garden centre set up alongside the solar business; day-to-day management delegated

System administrator — 2003 – 2008

Internet service provider · Ukraine

- Managed FreeBSD/Linux servers; Cisco routers (routing, ACLs, VLANs), BGP peering with upstream providers
- /20 IPv4 block (4,096 addresses) administered via RIPE NCC; DNS, DHCP, mail, web, firewalls (pf, iptables), VPN
- Infrastructure for 30,000+ customers; troubleshooting, monitoring and automation with Python, Perl and Bash

OWN PROJECTS (ELECTRICAL & AUTOMATION)

- **HortiWire** (sim.sulerr.com) – Interactive browser simulator for greenhouse automation and electrical wiring (NEN 1010 / IEC 60364, Priva, Hoogendoorn, Siemens PLC).
- **NEN-Hub** (nen.sulerr.com) – Learning platform for electricians: NEN 1010 / NEN 3140 guides, exam simulator, multilingual technical dictionary.
- **KasOntwerp** (kas.sulerr.com, beta) – Greenhouse design tool (beta): electrical, water, structure; 3D and exportable drawings. Not a legally valid design.
- **ElectroGrow** (tools.sulerr.com, beta) – Software for electricians (beta): NEN 1010 cable calculation, inspection checklists, work orders.
- **RS mounting system** – Own polyamide-6 mounting system for solar panels; 2 Ukrainian patents (#145018, #147676); in production since 2019.
